

Quick Guide to Organize Your Cosplays and Convention Experience

To use the Cosplay Organizer Page:

This page is meant to be secured to the outside of the garment bag, tote, or space you store a specific cosplay. It is recommended that you attach a head to toe photo of yourself wearing the costume, plus any reference photos of the character.

In the space provided, input the items that should all be kept together, and also list things that might be stored somewhere else (ie. dual purpose wigs, shoes, etc)

To use the Convention Checklist Page:

It's pretty straight forward. The list includes some highly recommended options for a flawless con-going experience, as well as extra lines to add user specific items to your list.
